CALENDAR INTEGRATION

This planner includes quick-access shortcuts for Apple Calendar, Google Calendar, and Reminders. These shortcuts are placed on the main planning pages for easy navigation.

Quick Access to Google Calendar

For best experience:

- 1. Install the Google Calendar app on your device.
- 2. Log in, and use Split View (or Slide Over) alongside your note-taking app for easy scheduling.

At Monthly Planner pages, the calendar sync icon will open Google Calendar directly to the selected date, allowing you to set reminders for important events and tasks.

Important Note s

Your written schedule in the PDF planner will not automatically sync with Google or Apple Calendar. You will still need to manually enter the event title and time after opening the link. Once the shortcut is installed, you may delete this instruction page if you wish .

Quick Access to Apple Calendar

Steps to activate and use the feature:

- 1. Enable Shortcut Sharing on your device .
Go to Settings → Shortcuts → enable Private Sharing.
(You may disable this after installation)
- 2. Install the Shortcut.

Tap the button to install the shortcut on your device.
